

Welcome to the Town of Mt. Morgan.

The city has recently been informed that the State DOT is planning improvements to the Burnett Highway, Mt. Morgan's main street. Currently, Burnett Highway is a 2 lane facility, with no stop lights or stop signs.

According to the State DOT, the plans for the Burnett Highway in Mt. Morgan include:

1. Widening the road from 2 to 4 lanes
2. Installing curb and gutter
3. Installing 4 or 5 new traffic lights
4. Replacement of the existing bridge over Dee river
5. Straightening existing road curves to meet speed standards for a 55 MPH facility (currently the posted speed limit in Mt. Morgan is 35 MPH.)

As a member of the Mt. Morgan community the State DOT has asked for your comments on the proposed projects. A link to a website was provided, along with an announcement about an upcoming public meeting to be held in a couple of months.

The DOT anticipates the following stakeholders to attend the public meeting:

1. School Board
2. Mount Morgan Mine representative
3. Hospital
4. Railroad
5. Resident
6. Post office
7. Business Owner from the business center
8. Golden Nugget Hotel
9. Town Mayor
10. Tourist Information Center
11. Motel and Van Park
12. Church members
13. Historical Society
14. Emergency Services
